

⚠ **CRITICAL NOTICE: EARLY MORNING DROP-OFF, OVERNIGHT PARKING & PROPERTY WAIVER**

Vehicles dropped off before regular business hours or stored overnight are left entirely at the customer's own risk. **Stealth Window Tint assumes no liability for accidental damage, vandalism, theft, broken glass, weather incidents, or missing personal property** while the vehicle is located on shop premises or adjoining exterior lots. All personal belongings and valuables must be removed prior to leaving your vehicle.

1 AUTHORIZATION & OPERATION

By leaving your vehicle with Stealth Window Tint ("Company"), the customer authorizes all requested installation services.

- Maneuvering:** Staff may start, operate, and park the vehicle on premises or public accessways strictly for positioning, curing inspection, or customer handover.
- Baseline Integrity:** Pre-existing mechanical, electrical, glass, or battery states remain solely the customer's responsibility.

3 XPEL MANUFACTURER WARRANTY

- Scope of Coverage:** XPEL manufacturer warranty coverage applies strictly to **bubbles, peeling, and/or fading**. It does not cover gouges, tears, seatbelt dings, pet scratches, glass breakage, or chemical damage.
- Registration & Delivery:** All XPEL warranty submissions are completed directly by Stealth Window Tint staff and emailed to you for your records upon job completion.

5 GLASS CONDITIONS & DOT MATRIX

- Shop Environment:** While clean installation methods are maintained, trace airborne dust specks may settle and do not constitute defective workmanship.
- Pre-Existing Glass Wear:** Film magnifies pre-existing glass pitting, rock chips, scratches, and water etchings.
- Dot Matrix Ceramic Frit:** Raised ceramic dots along glass perimeters prevent flush bonding, producing a normal whitish matrix border.

2 PARKING & DAMAGE DISCLAIMER

- Unattended Hours:** Vehicles parked outside regular operating hours remain at the owner's risk.
- No Bailment for Contents:** Company is not a bailee of personal items. Remove garage remotes, toll devices, electronics, sunglasses, and valuables.
- Force Majeure & Theft:** Company disclaims liability for theft, vandalism, forced entry, hail, storms, or accidental lot impacts.

4 FILM CURING & MANDATORY AFTERCARE

- DO NOT Roll Windows Down:** Keep all tinted glass rolled up for a mandatory **3 to 5 full days**. Rolling down prematurely lifts film edges and voids rework coverage.
- Curing Haziness:** Water pockets and a milky appearance are standard moisture evaporation stages and clear within 3 to 7 days.
- Cleaning Protocol:** Do not clean for 7 days. Afterward, clean strictly with *ammonia-free* cleaner and clean microfiber towels.

6 LEGAL COMPLIANCE & SETTLEMENT

- State Tint Laws:** If customer requests film darker than statutory limits, customer assumes all responsibility for citations, inspections, and tickets.
- Settlement & Lien:** Payment in full is required prior to key release. Company retains possessory mechanic lien rights.
- Old Tint Stripping:** Reasonable care is taken, but factory defroster grids weakened by aged adhesive cannot be warranted during tint removal.

CUSTOMER ACCEPTANCE & LIABILITY WAIVER ACKNOWLEDGMENT

I verify that I am the registered owner or authorized agent of this vehicle. I have read, understand, and agree to all terms, XPEL warranty terms, aftercare requirements, and liability disclaimers. I expressly release Stealth Window Tint, its owners, and employees from liability regarding early drop-off/overnight parking, vandalism, theft, accidental damage, glass wear, or legal tint violations.
